REFLECTION (Identification of training needs)

On a monthly basis a child receives furosemide 10/2ml suspension. This is not available as proprietary product and therefore must be formulated extemporaneously. This process involves crushing tablets and reconstituting with Keltrol. I have not prepared extemporaneous products since university.

PLANNING

*Before beginning I ensured I was familiar with the extemporaneous SOP's.
I have written out the calculation and gathered the necessary ingredients
I have recorded all relevant details on the worksheet and asked the pharmacist to check my work.*

ACTION (Description of event/situation)

I made the suspension following the SOP and asked the pharmacist to review the product.

| <p>EVALUATION (self-evaluation of learning)</p> <p>I was able to complete the worksheet and made a satisfactory product.</p> <p>Because I had some difficulty crushing the tablets it took longer than I would have liked. I will continue to make any extemporaneous products required during the rest of my pre-registration training.</p> |
| <p>Where performance observed by a person who is not the tutor:</p> <p><i>Declaration:</i> I assessed the trainee in the performance standards claimed and declare that an appropriate standard was achieved:</p> <p>Signed:.....A Tutor.....</p> <p>Date:.....19/11/2009.....</p> |
| <p>Comments of tutor:</p> |
