

# Pharmaceutical Society of Northern Ireland

Andree McCollum

It is with regret that we record the death of our Council Colleague Miss Andree McCollum.

Andree was a valued member of the Council of Pharmaceutical Society of NI since 2001 and played a major and dedicated role in the life of Council. Her commitment particularly to the regulatory aspects of our work was evidenced by her keen interest and involvement in the Law and Ethics committee, latterly being chair of this committee.

Andree represented Council of the board of NICPLD and was the Council's observer to the Legislation Committee of the Pharmaceutical Society of Ireland. In all these roles Andree was held in high regard and her contributions were greatly valued.

As a pharmacist particularly as Director of Pharmaceutical Services at the Eastern Health and Social Services Board her leadership skills and qualities were greatly valued and all her former colleagues have been greatly saddened by her sudden death.

The Society would offer their condolences to Graham, her brother and the wider family circle at this time, assuring him and them our thoughts and prayers.

As a mark of respect the office in Society House will be closed on the morning of Monday 10 January during Andree's funeral service, and the Council meeting scheduled for Thursday 13 January has been postponed until Thursday 27 January.
