

# Regulatory Update

December 2017 - ISSUE 4

Dear Trainee

Welcome to the December edition of our regulatory update.

In this edition we provide you with an update on pre-registration training. Some of the information in the newsletter is relevant to registrants but will provide you with knowledge of important regulatory matters affecting the profession. You will find an update on the progression of the Dispensing Errors (Registered Pharmacies) Order through Parliament. We provide a CPD update, covering key figures and reminders. You will also find a report on Council's meeting held in Dungannon on 7th November 2017. As well as notification that Premises Retention is going online.

If you would like to give any feedback on this edition of the Regulatory Newsletter or any other issue, please contact [Peter.hutchinson@psni.org.uk](mailto:Peter.hutchinson@psni.org.uk)
