

# Practice Calculation Questions

20 March 2018

---

Dear Trainee,

Two sets of calculation questions have been published on the pre-registration e-portfolio website to assist with your preparation for the registration examination. The MCQs are located under the MCQ tab on the home page.

Each set of calculations contains 5 true / false questions. After completing each set of questions, you will be provided with a score. If you answer the question incorrectly, you will be provided with illustration of the correct workings.

It is important to understand that the questions are for practice and that questions on the registration examination papers are likely to be different.

Regards

**Daniel Young**
